ITAV Meeting 9.27.17

Opening prayer / devotion

Wireless mics
Wireless mics need to be replaced due to the frequency issues from the FCC. Will look at one system of mics & pacs that will work in both Nave and FH. Jon had a brief meeting with Mike Morgan from AAVS to look at the current system. Estimated replacement cost for twelve is $12,000.

Advanced AV Estimate is Attached

Will need to check the Band monitoring system, and frequency of hearing impaired system(Note: Hearing assist devices are fine.)

Sermon Recordings
Is it worth investing in streaming hardware at this point for the sermons? Based on the views on youtube at this point, No it is not.

Video for Stewardship
Jon will run video for Saturday & in the nave. Whoever is running the video for Contemporary will run that.
In the nave, for this week at least, will use the largest TV we currently have on a stand.

For the good of the order
Jeff reported that the new web site will go live tomorrow afternoon, hopefully by 3P.

Meeting adjourned with prayer

Next Meeting will be Oct. 25 at 7pm
