

Educational Ministry Committee  
Report to council  
March 9, 2009

The education ministry committee did not meet in February, however the following action is taking place:

- 1). We are planning to introduce a new summer Sunday School opportunity for school age children from kindergarten through 7th grades. The planned curriculum is "the one room schoolhouse", in which two combined classes will be offered. We are writing or e-mailing Trinity's college students requesting volunteers to team teach these classes.
- 2). A koinonia rally is being planned to take place April 22 to revive this program, which had its beginning in the 1970"s. We plan to serve pies, after our discussion.
- 3). The Sup n' Study program will be under way by the time council meets. It is our hope that council members support this wonderful program.
