

TRINITY LUTHERAN CHURCH

ADMINISTRATION AND PERSONNEL COMMITTEE

REPORT TO COUNCIL – May 10, 2020

At its last meeting, the A&P Committee discussed, but deliberately did not reach any decision about two questions: (1) the need for and characteristics of a new 20-hour per week position for a person to help with facilities management, scheduling, and room set-up; and (2) the possibility of reallocating functions among the staff, or possibly creating a new position, to permit continued attention to electronic outreach to present and prospective members of the congregation of the types of outreach that have been so well-received during the closure of the building. These discussions resulted in a conclusion that we should collect more information before further considering these questions and possibly making recommendations to Council. The committee will gather such information and will meet again in a couple of weeks.

Peter Glenn, Chair
