B. Small Group Fellowship: The fellowship team was joined by Kelly Falck to discuss moving forward with fellowship while still facing the challenges presented by the pandemic. Working with a blank canvas, we came up with a series of small group events under the branding of “Circle Up”. These events would give the congregation a chance to reconnect or perhaps connect for the first time...social, fun, laid-back...a mini-family reunion of sorts. Each event would be covid-19 compliant abiding by the guidelines of the state and the church. Stipulations include, masks and social distancing observed, 8-10 people in a small group, no food, and the option of meeting one on one, or via Zoom Chat. A tentative timeline of beginning the events after Labor Day and running for a three week period with 2 events per week and in addition, a destination hiking event. We anticipate to begin advertising the events three weeks in advance of the official start date. So often we have heard members say how much they miss seeing each other...this will give them that opportunity as we will “Circle Up” and talk about anything and everything with a variety of themes.

C. Due to the pandemic, The Sundae Concert scheduled for the end of August has been cancelled and will return next year.

D. Sill to be determined...Oktoberfest and T&G...More to come on what continues to be a fluid, challenge when it involves planning future events.
