

Report to Congregation Council Strategic Planning Committee September 11, 2017

Report to Council's September Meeting from Strategic Planning Committee

The Committee will meet on September 27 to review that status of action steps and goals included in Trinity's strategic plan. Please continue to address your particular areas of the plan.

We will address as well how to evolve and adjust our plan as it moves into its second three-year cycle. We welcome your ideas and comments as your input as leaders of the church is very important to address.

We will not be publishing a mid-year report due to the slower moving process of some of the areas, especially our capital development. Some sections of the mid-year report have not yet been submitted by Chairs and staff. Thank you to all who provided updates. We will use your reports for discussion at our meeting. Our intent is to report to Council and the congregation by late December the end of year report on our plan. Please stay posted.

Yours in Christ,

**Bob Frymoyer, Chair
Strategic Planning Committee**
